Experience the rich diversity of Melanesian cultures in PNG from the Sepik to the highlands. Appreciate sings-sings and wonderful artefacts. The Sepik region is an immense grassland reserve, drained by one of the world's greatest rivers. The river is this region's Congo, with an amazing Melanesian culture, which produces world famous artefacts. The people along the 1126 kilometre river maintain a very traditional life which depends heavily on it for transportation, water and food. This safari coincides with the spectacular Biang Ngayam Festival in Lae which presents a variety of stunning dances and displays.

Day 5, Wednesday, 16th May: Visit two villages famous for their arts and crafts. People from the Middle Sepik are most noted for their masks and intricate wooden carvings.
